**RE: RUST TEST ON BE-SURE BY ZONE CHEMICALS (PTY) LTD**

After receiving your inquiry we tested soft metal samples submerged in the Be-Sure product. The test was run over the course of 5 days, no visible rust was detected.

Because of the diverse environment that the product will be used in we have increased the rust inhibitor as an effort to accommodate this.

Kind regards,

Johan Schutte  
Marketing Director  
Zone Chemicals (Pty) Ltd
